Committee Sec.

20 SEP 1974

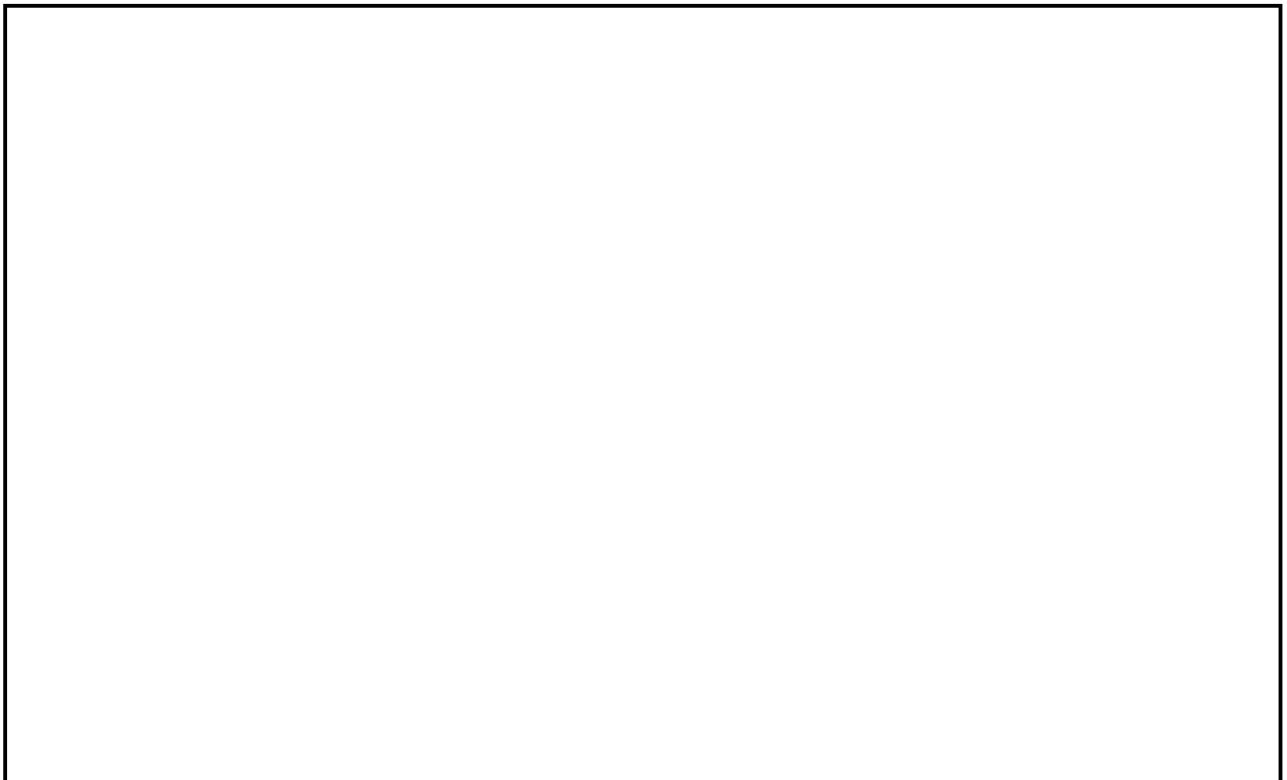

MEMORANDUM FOR: Associate Deputy to the DCI for the Intelligence Community

SUBJECT: Organization of USIB Production Committees

25X1

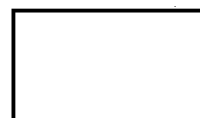

1. The organization of the SIC is proceeding with general support among the members for the new thrust of the committee's efforts. I think that matter is now well in hand. There remain different views on how to provide coverage of those weapons intelligence areas previously the responsibility of the SIC, however. Discussions on this matter subsequent to those with you and General Graham have been held with Evan Hineman, Chairman of GMAIC and [REDACTED], Chairman of SIC. While we focused on the creation of an additional weapons intelligence committee in the earlier discussions, we now favor the reconstitution of GMAIC as an overall Weapons Systems Intelligence Committee of USIB.

CONFIDENTIAL

7. I suggest we discuss this with General Graham before proceeding further in view of his high interest in the matter. He was clearly enthusiastic about the establishment of a new committee which would include responsibilities that were focused upon individual Service concerns. I think that such a Service role can be defined within the single committee proposed here.
